**LinkedIn:** linkedin.com/in/lisasiurina
**GitHub:** github.com/lisasiurina

## PROFILE

I work in Human–Computer Interaction, focusing on how digital systems are designed, understood, and used in practice. I am used to learning new domains, working with technical documentation, and making sense of complex setups by breaking them down into clear and practical structures.

## EDUCATION

**Ph.D. Candidate in Computer Science**
**University of Cape Town** (Nov 2024 - present)
Google PhD Fellowship recipient

- Dissertation: "Emotion Elicitation in VR: How Sensory and Narrative Design Shape Curiosity and Anger"

**National Research University of Electronic Technology, Moscow, Russia** (Jun 2011 - Jul 2015)

- Thesis: "Translating Literary Allusions: Insights from American Press Headlines"

## LANGUAGES

- English (Advanced)
- Italian (Advanced)
- Russian (Native)

## TECH SKILLS

- Unity
- Python
- HTML5, CSS3
- SQL (MySQL, SPARQL)

## RESEARCH SKILLS

- Research design and methods
- Qualitative and quantitative data collection
- Data analysis and interpretation.

## DESIGN TOOLS

- Figma
- Adobe Illustrator

# WORK EXPERIENCE

**UX Researcher:**
Mar 2022 - present

- Conduct qualitative and quantitative research to understand user behavior and product usage across digital platforms.
- Analyze research findings and market data to identify patterns, issues, and opportunities for improvement.
- Translate research results into clear insights and practical recommendations for product and design teams.
- Prepare structured reports and documentation to support decision-making and iteration.
- Collaborate with cross-functional teams to evaluate changes and assess their impact on user experience.

**Marketing Analyst**
**Global Center**
Dec 2016 - Mar 2018

- Conducted market research and data analysis related to tourism and business immigration services.
- Analyzed user behavior, preferences, and market trends to support marketing and product decisions.
- Evaluated brand and campaign performance, providing data-driven insights to the marketing team.
- Supported marketing strategy development with analytical findings and reporting.
- Participated in industry conferences and events, building professional contacts and supporting partnership development.

**Product Operations Manager**
**W12 Smart-contracts**
Mar 2018–Oct 2019

- Evaluated blockchain projects prior to being listed on the platform.
- Conducted research and analysis of blockchain projects and market landscape.
- Supported platform operations by maintaining project documentation and structured information.
- Worked on project materials, including whitepapers, pitch decks, and platform project descriptions.
- Coordinated communication between projects, investors, and internal product and development teams.
- Used CRM tools and Jira for coordination, tracking, and reporting.

**Customer Complaint Analyst**
**Zenhotels.com**
Jun 2015–Nov 2016

- Analyzed customer complaints and feedback to identify recurring issues and patterns.
- Prepared reports and insights to support improvements in service processes and complaint handling.
- Collaborated with internal teams to improve response quality and overall customer satisfaction.
